NEW FOR 2026

STAY HUT.

PREMIUM GUEST & LUXURY HOTEL ACCOMMODATION.

CGI image for illustrative purposes.

YOUR GUIDE TO STAY HUT

The Stay Hut is our fresh take on what guest accommodation can be. Designed with intention, it brings together comfort, simplicity, and bold design in one beautifully compact & unique structure: offering your guests an experience they'll want to share (and rebook).

→ **Sleeps 2-4**

→ **Delivered complete and ready**

Whether it's set in a meadow, tucked into woodland, or perched by the sea, the Stay Hut is made to help destinations like yours stand out. Think five-star guest experiences, seamless design, and a space that delivers; on bookings and beauty.

Image reflects take on the 'Classic' Stay Hut floorplan. CGI image for illustrative purposes.

1 Designed for Luxury Hospitality

Crafted for high end accommodation, the Stay Hut offers comfort and practicality wrapped in an immersive, playful design that stands apart from traditional huts and works efficiently for owners.

2 Planning-Friendly & VAT-Reduced

Built to meet caravan planning criteria, the Stay Hut benefits from a reduced 5% VAT rate, making it more cost-effective without compromising on quality.

3 Compact, Clever Design

At 6.35m x 2.6m (smaller footprint available), the Stay Hut makes smart use of space, with room for a king-size bed, cosy living area, pantry style kitchen, immersive bathroom, and even optional mezzanine sleeping.

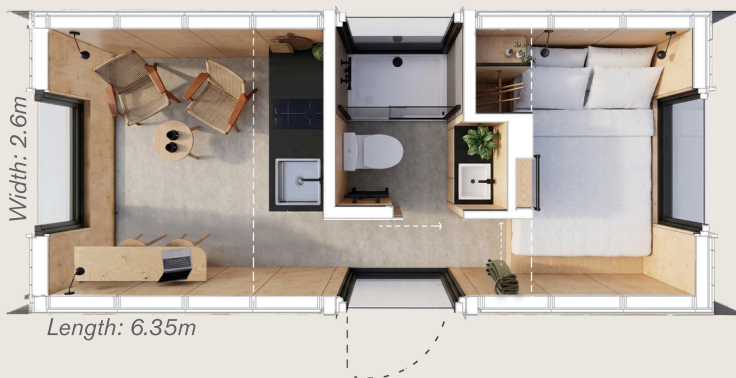

4 A Turnkey Investment

Built smartly and by hand in our Devon workshop and delivered fully complete, the Stay Hut makes installation effortless. A beautifully designed, ready to use cabin that adds instant value to your site.

FLOOR PLANS

Floor plans shaped to meet your commercial or living setup.

Discover three standout layouts tailored to a range of uses. More information on configurations and on optional upgrades will be discussed in your design consultation.

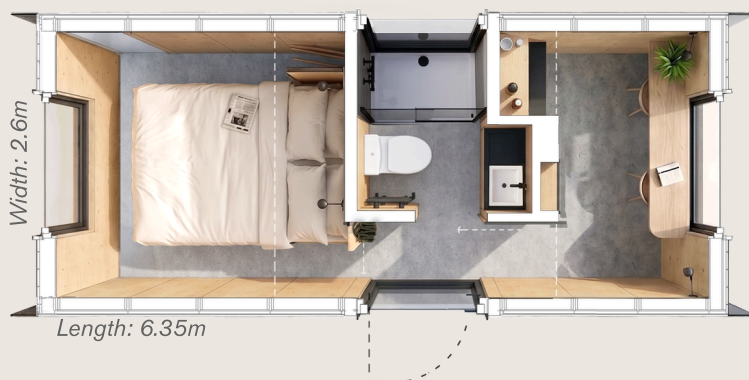

THE CLASSIC

+ 5% VAT & installation

THE LUXE

Larger bedroom footprint with walk around access & king-sized bed facing view. Cosy living space.

Perfect for: luxury hotel rooms in nature.

Starting Price: £ 57,000

+ 5% VAT & installation

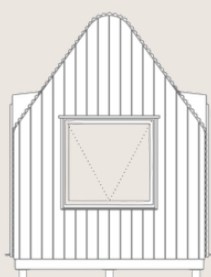

THE SNUG

Our little space for small living & staying. For tiny home living.

Perfect for: tiny home living & staying.

Starting Price: £ 57,000

+ 5% VAT & installation

Gable Height: 3.4m (not including groundscrews)

COMMERCIALLY CONSIDERED

Stay Hut is designed for operators who want to create memorable guest stays without the complexity of bespoke development. Combining contemporary architecture, practical layouts, and proven build expertise, our cabins are made to work beautifully in hospitality settings - helping you launch distinctive accommodation that performs commercially and feels exceptional to stay in.

→ **Designed for commercial use**

Built specifically for hospitality operators: durable, efficient spaces designed to maximise guest experience and long-term returns.

→ **Clear pricing from day one**

Straight forward pricing with no hidden surprises, helping you plan projects and forecast investment with confidence.

→ **Reliable delivery & installation**

Dedicated production and installation schedules that keep your project moving and your launch timeline on track.

Built in kitchen

Various colour choices

Unique 'epiphany' shower

Frosted glass available

King sized bedroom nook

Alternative layout options for other floorplans

Large gable window

Galvanised Steel Corrugate

Black Corrugate

Chestnut Corrugate

EXTERIOR

The Stay Hut is wrapped in UK-manufactured corrugated steel cladding: a contemporary, hard-wearing exterior designed for longevity in exposed coastal, rural and woodland settings. Its seamless wrap-around form creates a bold architectural profile while offering a durable, low-maintenance finish built to withstand the elements.

Available in a range of colour and material finishes to suit your landscape and aesthetic. All models are complemented with vertical UK larch gable cladding, bringing warmth, texture and a natural contrast to the steel exterior.

DESIGN FEATURES

Find inspiration with bold & architecturally led design features.
Spaces that make your guests feel 'wow'.

Frosted glass available

THE 'EPIPHANY' SHOWER

A bold shower experience guests won't forget. Designed around a full-length picture window, it transforms a daily routine into an immersive connection with the landscape and views. For commercial operators, it's a defining design feature that elevates the entire stay experience, creating a sense of calm, escapism, and quiet luxury that guests genuinely remember. The epiphany shower is a standard feature in all three of Stay Hut floor plans.

THE 'CLASSIC'

Bed at window height

Cosy king sized bed nook

Smart build in storage

CGI image is based on 'Classic' Stay Hut with standard configuration.

BEDROOM NOOK

There's something quietly special about sleeping beside the view. The Classic Bedroom Nook places a generous king-size bed right by the window - made for slow coffee-in-bed mornings, stargazing evenings, and those restful moments guests remember. With soft lighting, warm ply finishes, and smart built-in storage, it feels cosy, considered, and effortlessly photogenic.

THE 'CLASSIC'

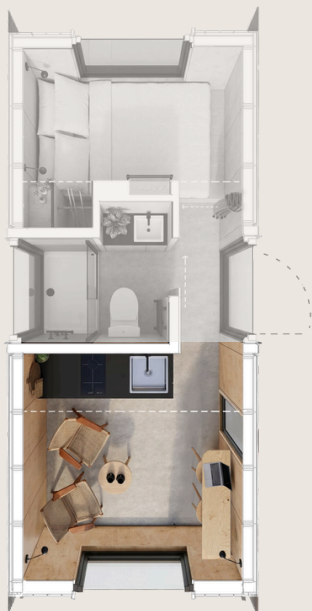

Spacious living area with space for custom seating

An expansive mirrored backsplash

CGI image is based on 'Classic' Stay Hut with additional gable door/window configuration.

KITCHEN & LIVING SPACE

A smart, well-organised living space designed for comfortable self-contained stays. The Classic floor plan features a generous kitchen with mirrored splashback, large gable glazing, and warm natural ply finishes that create a bright, calm atmosphere throughout. Carefully positioned windows keep guests connected to the surrounding landscape - even while cooking, dining, or unwinding indoors.

THE 'LUXE'

Integrated and open storage

King sized bed with walk around access

CGI image is based on 'Luxe' Stay Hut with standard configuration.

BEDROOM SUITE

The Luxe floor plan prioritises a more spacious, hotel-inspired sleeping suite (with minimal kitchen facilities) - creating a calm, premium guest experience. Featuring generous bedroom proportions, cosy ambient lighting, a full-height mirror, smart 'Ottoman' gas-strut bed storage, and large picture windows positioned to frame the surrounding landscape. Operators can also upgrade to immersive gable-end glazing and door configurations for an even more striking connection to nature.

THE 'LUXE'

Strip mirror with storage behind

Worktop with plug for kitchen appliances

Option for floating bench on back wall or left open for seating

CGI image is based on 'Luxe' Stay Hut with no bar table (accent chairs instead)

LIVING AREA

The Luxe floor plan is centred around the bedroom experience - designed to feel more like a boutique hotel suite than a traditional cabin. While the kitchen remains intentionally minimal, it still includes a thoughtfully integrated 'essentials' setup for simple meals and morning coffee with a view. An optional floating dining bar offers a relaxed place to sit, work or unwind while taking in the landscape. Alternatively, the space can be styled with lounge or accent chairs to create a more open, hotel-inspired living setting.

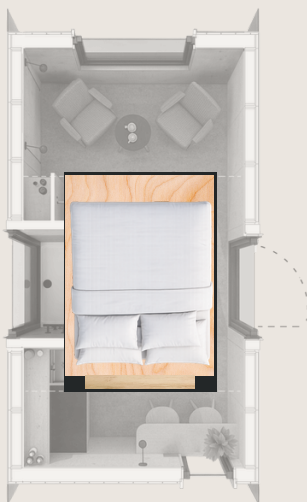

THE 'SNUG'

Cosy sleeping space for 1 adult or 2 children

CGI image is based on 'Snug' Stay Hut with mezzanine configuration.

MEZZANINE BEDROOM

A cosy sleeping nook designed for additional or alternative guest accommodation. Integrated into the cabin architecture, it features a small double mattress, built-in charging points, reading light, headboard shelf and industrial-style ladder; creating a comfortable, tucked-away retreat guests will love. Suitable across all floor plans as a primary or secondary sleeping space. Please note, the space behind the headboard shelf remains open to the living area for ventilation.

THE 'SNUG'

An expansive mirrored backsplash

Floating dining bench against strip window

CGI image is based on 'Snug' Stay Hut with standard configuration.

A COSY KITCHEN

The 'Snug' kitchen and dining area makes the most of its compact footprint through integrated storage, open shelving and a floating dining bench. Large windows, paired with a mirrored splash back help draw natural light through the space, creating a brighter and more open feel.

OUR MOST SUSTAINABLE CABIN YET, DETAILS THAT MATTER.

Wood-Fibre Insulation

Breathable, sustainable and high performing. Wood fibre insulation regulates temperature year round, reduces noise, manages moisture and offers excellent fire resistance without synthetic additives

Handcrafted Kitchen Fronts

Kitchen cupboard fronts are handmade by our in-house joiner using wood-fibre panels coloured with organic pigments. Durable, eco-friendly and available in a rich palette.

Luxury Vinyl Flooring

Hard-wearing, easy to clean and ideal for high guest turnover. Comfortable underfoot and tough enough for muddy boots and everyday living.

Corrugated Exterior with Larch timber Gables

UK-manufactured corrugated steel cladding provides a contemporary, low-maintenance shell in a range of colours (Anthracite as standard). Upgrade to COR-TEN for a rich, weathered finish. UK-grown larch gable ends add natural warmth and rugged durability.

Recycled Worktop

Kitchen worktops made in the UK from 100 percent recycled plastics such as yoghurt pots. Waterproof, durable and uniquely patterned— each piece tells its own recycled story.

Custom Window Options

Customisable gable and elevation glazing options let you balance privacy, light, and panoramic views to suit your setting. Talk to the team for floor plan door and window configurations.

European Plywood Interior Panelling

WISA® spruce plywood with naturally low VOC levels creates a bright, airy interior with a warm, modern feel.

Designed and built in South Devon

Each Stay Hut is carefully handcrafted by our in-house team of skilled carpenters and builders, bringing together considered design, quality materials and British craftsmanship.

WHY LIFE SPACE CABINS

Beyond the Building

While the Stay Hut is designed as a streamlined and repeatable product, **every site and project is different.**

Our wider team brings together expertise in **design, construction and operational planning**, allowing us to support projects at a range of scales, from single retreat spaces through to hospitality and multi unit schemes.

Where required, we can help guide discussions around:

- Site feasibility and planning considerations
- Layout and master planning for multi unit projects
- Access, servicing and infrastructure strategy
- Guest experience and operational flow
- Foundations, drainage and utility coordination
- Delivery logistics and long term site evolution

This joined up approach helps ensure the Stay Hut works not only as a beautiful building, but as part of a successful wider project.

GET STARTED

If you feel a Stay Hut could be the right fit for your project, we'd love to hear more about your plans. To help us prepare for your consultation and streamline the design process, please send the following information to our team:

1. Your name & company (if applicable)
2. The number of units required and your preferred Stay Hut floor plan
3. Approximate project timeline
4. Any site photos, plans, or inspiration references (if available)

Once submitted, our team will review your enquiry and prepare an initial concept direction tailored to your project before arranging your consultation.

Please send all information to Dan or Kate:
dan@lifespacecabins.co.uk | kate@lifespacecabins.co.uk

If you'd prefer to talk through your project, please give us a call:
01364 705057 or WhatsApp us on 07835319903
